Commissioned Officers Foundation Approved for 2003 Combined Federal Campaign of the National Capital Area

The Commissioned Officers Foundation for the Advancement of Public Health (COF) received word today that they have been approved for participation in the 2003 Combined Federal Campaign of the National Capital Area.

The Foundation will be listed in the "Local Agencies" section of the campaign catalog under the designation number **7584**.

The Commissioned Officers Foundation (COF) is a 501(c)(3) nonprofit organization dedicated to the advancement of public health. The Foundation's purpose is to assist in the education and training of health professionals, conduct studies and research for health related issues, collaborate with related organizations and partake in the broad dissemination of public and professional information, and assist other educational and charitable organizations in the conduct of similar activities.

COF is an affiliate of the Commissioned Officers Association (COA) which is a professional association dedicated to improving the public health of the United States through leadership, education, and communication
